

EzFan Clip

- By using the EzFan clip, encoders can be mounted more quickly, cheaply and safely on the shaft outside the fan cowl. The EzFan clip is suitable for Kübler torque brackets with a tether arm.

Simple:

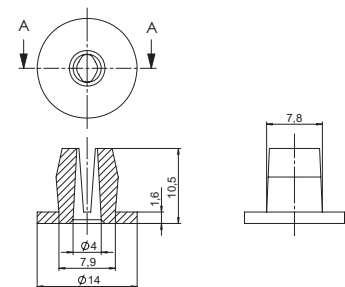

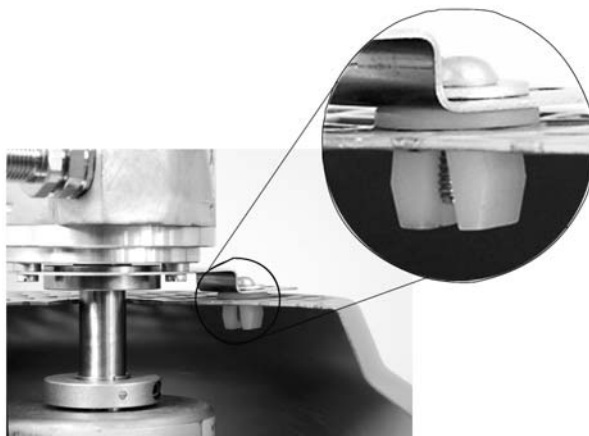

- Simple, quick mounting solution for encoders with a tether arm on the outside of the fan housing – within 15-20 seconds

Economical:

- Saves greatly on installation time and costs

Easy installation:

- Can be installed without removing the fan cowl
